

## Mechatronics Engineer Mechatronics Technician

(m/f/d)

**WHO WE ARE:** We are a steadily growing special machine manufacturer based in Chemnitz and have specialized in innovative complete solutions for quality assurance. We carry out the entire development process for the systems in-house – from brainstorming to construction and production to on-site commissioning. Our customers are large, global companies from all areas of industry. We continue to grow – for this we need you as:

### ***Mechatronics Engineer / Mechatronics Technician (m/f/d)*** in the field of special machine construction.

#### **YOUR TASKS:**

- Assembly of parts and systems in accordance with the design documents and technical drawings
- Installation of electronic and pneumatic components
- Optimization and enhancement of existing systems
- Installation of measurement, control and regulation equipment
- Adaptation of applications and setting of various integrated systems in the machines
- Simple commissioning activities in-house

#### **YOUR PROFILE:**

- Completed training or further education as a mechatronics engineer, mechatronics technician (all m/f/d) or a comparable qualification
- Good technical understanding and manual skills
- Routine handling of component drawings
- Independent way of working and quality awareness
- Class 3 (or B) driving license is desirable, but not a requirement

#### **YOU CAN COUNT ON:**

- open-ended employment relationship with attractive pay
- flexible working hours in flexitime
- 28 days annual vacation + knockout days rule in the event of illness
- attractive working atmosphere and short decision-making paths
- modern working environment
- additional social benefits (e.g. company pension scheme, kindergarten allowance, ...)
- regular employee events, fruit basket, free drinks
- free parking and good transport links
- structured onboarding processes

#### **ARE YOU READY FOR A NEW CHALLENGE?**
